

Pork Store: A History

In 1916, an immigrant couple from Czechoslovakia came to the states and opened butcher shop, Pork Store on Haight street. They imported stained glass from Italy for the original logo which hung above the front entrance. In the 40's, the owners passed the store on to their grandsons, who continued for the next decade.

During the next 20 years the location was taken over by Three Coin Cafe, a hair salon, Vic's Coffee shop and Raffies Lebanese Cuisine till 1979. After which wooden boards were removed during construction to reveal the beautiful stained glass sign of the Pork Store still intact.

The Pork Store Cafe was born and 36 years later it has become a distinguished breakfast institution of San Francisco. The chef Nadia is credited with this success; along with her right hand cook, Servando. Nadia's cooking expertise and unique personal touches coupled with Servando's Tex-Mex background spiced up the food to create some of our most popular dishes available today! Our Mission District location opened up in 2003 as the second Pork Store cafe. Bon Appetite!
